Samsung's large capacity washerwoman provides the room clothes needed for deeper and cleaner washing. 2.AquaJet™ AquaJet™ loads gently and more accurately than conventional top chargers. Sprayed water allows the detergent to distribute evenly and penetrate tissues faster and deeper. AquaJet™ offers better cleaning and advanced fabric care. 3.DD Engine The power to handle anything! Our direct-wheel drive inverter engine provides power directly to the washing machine tank from a variable speed, reversible motor. Beltless direct-wheel drive motor generates higher rotational speed for faster operation and silent. The washing machine also has fewer moving parts, which means fewer repairs. 4.Mist Shower A separate nozzle sprays water equally throughout the tank so that the rinsing cycle is effective even with a small amount of water. 5.VRT® (Vibration Reduction Technology) This Samsung washing machine works smoothly at higher rotational speeds, minimizing noise and vibration. 6.Eco Plus If select this option, the water temperature is set to slightly lower than the normal washing course to save energy. 7.Pure™ (Pipe Cleaning Cycle) Clean the drum with a button! Pure Cycle is specially designed to remove detergent residues and buildup dirt in the tank, without the need for special chemical detergents. 8.My Cycle This is a convenient feature that allows you to save a frequently used washing course. Once you set this, you can do a wash by simply pressing the Power, Cycle, and Start buttons sequentially. 9.Samsung's Smart Care, an automatic error monitoring system, detects and diagnoses problems at an early stage and provides quick and simple solutions. 10. Sanitize (WA50F9A8D) When selecting the NSF certified and Sanitize cycle, the water heats up to an extra high temperature and removes 99.9% of some bacteria that are typically found on clothes, bedding or towels. This certification is granted by NSF International, an independent third-party testing and certification organization. Please check the garment's care label to avoid damage to the garment. Only sanitization cycles have been designed to meet the requirements of this protocol for the effectiveness of sanitization. NSF Protocol P172 Sanitization performance of washing machines for residential and commercial clothes, family-friendly 2_ key features of the new F900A washing machine WASH_WA50F_USER MANUAL_DC68-03133H_EN.indd 2 2013-1-23 16:48:42 safety information Congratulations on the new Samsung Washer. This manual contains important information about the installation, use and care of the device. Please take time to read this manual to take full advantage of the many advantages and features of the washing machine. What you need to know about safety instructions Warnings and important safety instructions in this manual do not cover all possible conditions and situations that may occur. It is the user's responsibility to use common sense, caution and care during the installation, maintenance and operation of the washing machine. Important safety symbols and precautions What the icons and signs mean in this user manual: unsafe hazards or practices that can cause serious personal injury or death. WARNING To reduce the risk of fire, explosion, electric shock or personal injury while using the washing machine, follow the following basic safety precautions: unsafe hazards or practices that may cause minor personal injury or material damage. DO NOT attempt. DO NOT disassemble. DO NOT touch. Follow the instructions explicitly. Disconnect the power outlet from the wall outlet. Make sure the machine is on the ground to avoid electric shock. Call the help center Assistance. Note: These warning icons are here to avoid injury to you and others. Please put them in the state of esod5. After reading this section, store it in a safe place for future reference. Read all instructions before using the unit. SAVE THESE INSTRUCTIONS Safety Information _3 F900A WASH_WA50F_USER MANUAL_DC68-03133H_EN.indd 3 2013-1-23 16:48:42 Safety Information WARNING: To reduce the risk of fire, fire, for persons using the device, follow the basic precautions, including the following: 1. Read all instructions before using the device. 2. Do not wash or dry items that have previously been cleaned, washed, soaked or spotted with gasoline, dry cleaning solvents, other flammable or explosive substances as they endodor vapors that may ignite or explode. 3. Do not allow children to play on or in the device. Strict supervision of children is necessary when the device is used near children. 4. Before the appliance is removed from service or discarded, remove the cover of the washing or drying compartment. 5. Do not reach the device if the drum is moving. 6. Do not install or store this appliance where it will be exposed to the weather. 7. Do not tamper with commands. 8. Do not repair or replace any part of the appliance or attempt any maintenance unless it is specifically recommended in your maintenance instructions or published user repair instructions that you understand and have the necessary skills to perform. 9. Do not add gasoline, dry cleaning solvents or other flammable or explosive substances to the washing water. These substances endodor vapors that could ignite or explode. 10. In certain conditions, hydrogen gas can be produced in a hot water system that has not been used for 2 weeks or more. HYDROGEN GAS IS EXPLOSIVE. If the hot water system was not used for 2 weeks or more, before using a washing machine or washer combination, turn on all the hot water taps and let the water flow from each for several minutes. This will release any accumulated hydrogen gas. Since the gas is flammable, do not smoke or use an open flame during this period. State of California Proposition 65 Warnings: WARNING The California Safe Drinking Water and Toxic Enforcement Act requires the Governor of California to publish a list of substances known to the State of California to cause cancer, birth defects or other reproductive damage, and requires companies to warn of potential exposure to such substances. This product contains a chemical known to the state of California to cause cancer, birth defects, or other reproductive damage. This device can cause low-level exposure to some of the listed substances, including benzene, formaldehyde and carbon monoxide.
